

# Port-A-Cool

of **TEXAS**

2008 Demo Models Available

[www.PACOFTEXAS.com](http://www.PACOFTEXAS.com)

*Keep your horses cool and safe!*

Port-A-Cool Evaporative Cooling Fans are very important in preventing and treating heat stress and heat strokes. "Air flow is vitally important for convection of heat off the horse's body. This accounts for 65% of the heat dissipation."

2009 EVENTS (Texas & Oklahoma) Website or Call
